

SHADWELL

Covid-19 Epidemic

In view of the above, Newmarket Stallion Studs have amended their covering requirements as follows :

Do not travel to Shadwell if you are displaying any Covid Symptoms including a temp or have been in contact with anybody that has been diagnosed with or who is displaying symptoms of Covid.

Mares with foals at foot: We would encourage mares to travel with foals to the stud.

Mare Owners, Staff and Box drivers should stay with their vehicles. No mare Owners in covering barn or viewing gallery

All paperwork should be sent electronically in advance, including passport with vaccination information.

Stallion Stud staff will take mares from horsebox to covering and back to horsebox

Stallion Stud staff will exercise every precaution when handling visiting mares. This will include the use of hand wipes, gels, disinfectants and cleaning of stallion stud farm bridles if used.

These measures are in addition to all current requirements and possible rapidly changing Government health requirements. It is hoped to avoid or minimise direct contact between stallion farm staff and visiting mare owners, transporters and staff.
